#### YOU MIGHT BE A RURAL CARRIER....

If you are the last one in your community to hear about a postal rate increase.  
If half the folks in the county owe you 23 cents.  
If you have to turn every page of "Victoria's Secret" to find a good address.  
If the mail that you deliver is starting to DPS you off.  
If your kids are speaking in acronyms.  
If your emergency brake is always on.  
If after a rural route count your Postmaster says you route is going to H.  
If you work the day after each holiday, you might be a RCA.  
If you think more about addressing, than undressing.  
If your day is full of cancellations.  
If you start work at 7 AM, get off at 6 PM, and are evaluated for 8 hours of work.  
If your car has more dust in it than your driveway.  
If your car has more dirt on it than your driveway.
